REMARKS/ARGUMENTS

1. Election/Restrictions:

Restriction to one of the following inventions is required under 35 U. S. C. 121:

5 I. Claims 1-10, drawn to a method of fabricating an organic light emitting display device, classified in class 445, subclass 25.

II. Claims 11-26, drawn to an organic light emitting unit, classified in class 313, subclass 504.

10

Inventions Group I and Group II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP §
15 806.05(f)). In the instant case the organic light emitting unit could be manufactured without varying the ratio of source compound with time.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for
20 examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

25

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction

for examination purposes as indicated is proper.

Response:

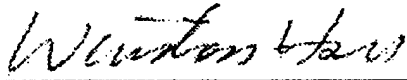

5 Applicant has elected Group II and has accordingly amended the claims in the above
AMENDMENTS TO THE CLAIMS section. Claims 11-26 are elected as the subject matter
to be examined in the present application. And claims 11-26 are drawn to an organic light
emitting unit. Claims 1-10 are non-elected and are therefore withdrawn. No new matter is
introduced.

Applicant respectfully requests that a timely Notice of Allowance be issued in this
case.

Sincerely yours,
